

# SCCPs Hands-on Colposcopy Workshop

## Academia, 4 March 2023

### Aims and Target Participants:

This course is specifically designed for doctors and nurses interested in colposcopy. It provides a sound theoretical and practical basis of colposcopy for newcomers to the technique. It also serves as a refresher course in colposcopy for current practitioners.

### Method of Teaching:

This is a unique interactive Course. The course content is delivered by active group discussion between course facilitators and participants. Equal attention is emphasized on participants' understanding in the theoretical and practical basis of colposcopy in the management of cervical neoplasia.
